

Erasmus+

Enriching lives, opening minds.

A photograph of a school building with a blue sign. The sign is mounted on a metal frame and features a small crest at the top center. The text on the sign is in white, uppercase letters. The building behind the sign is a multi-story structure with a light-colored facade and several large windows. There are some trees and bushes in the foreground, and a few streetlights are visible. The sky is overcast.

As part of an Erasmus Project, they came and visit our school to take part in our lessons and share ideas and methodologies in order to:

1.Improve the digital competence of students through the creation of an educational school model.

2. Improve the digital competence among teachers and its implementation in the classroom.

3. Promotion of globalized, inclusive and cooperative methodologies address to teachers.

**4. Implementation
of competence
and inclusive
methodologies**

**5. School
enhancement at a European
level.**
